

# DLM-VZL Series

## Details that counts

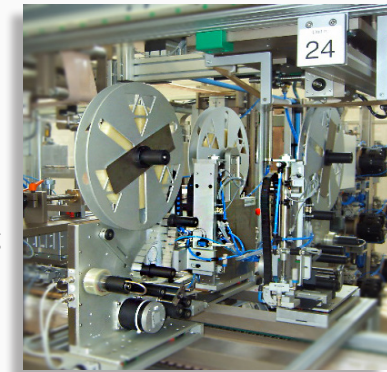

### LABELLING MACHINES

DLM-VZL labeling machine series is composed of various formats, offering a simple solution to problems regarding autoadhesive labels application on products of every size and format.

The majority of "DLM" products uses common parts, allowing a notable save in spare parts.

All machine functions are managed and controlled by a microprocessor inside the 3.5 Touch programmer, capable of storing up to 100 programs.

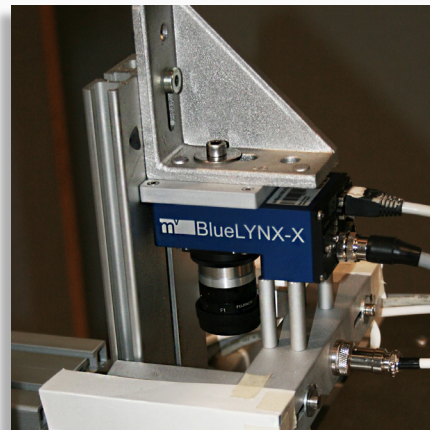

The already described labeling machines are equipped with a fast stepper motor, guaranteeing a precise and easy to control process.

### LINES

Delta Service Automation offers a wide range of support structures (bases, columns, joints, terminals, moving tapes, etc...) that allows to install the labeling machines in various positions (horizontally, vertically, angularly, etc...) in relation to the transport system, of our supply or already existent, eventually. Thermal transfer or thermal print groups of various performances and sizes can also be linked.

Various optionals are furthermore available, of which pneumatic applicators, microtoucher for transparent labels, etc... Our machines are also available in various configurations based on labels' width.

Parameters	Dlm-31-VZL	Dlm-315-VZL	Dlm-320-VZL
<b>Label width (support material included)</b>	100 mm.	150 mm.	200 mm.
<b>Label reel external diameter</b>	280 mm. max	280 mm. max	280 mm. max
<b>Label reel internal diameter</b>	42 mm. max	42 mm. max	42 mm. max
<b>Label stop precision(on distribution blade)</b>	+/- 0,5 mm.	+/- 0,5 mm.	+/- 1,0 mm.
<b>Linear speed (adjustable)</b>	40 m/min-max	35 m/min-max	30 m/min-max
<b>Motor</b>	stepper 400N/cm.	stepper 600N/cm.	stepper 600N/cm.
<b>Speed control</b>	remoted touch screen	remoted touch screen	remoted touch screen
<b>Available versions</b>	right/left	right/left	right/left
<b>Machine body</b>	anodized aluminum/ stainless steel	anodized aluminum/ stainless steel	anodized aluminum/ stainless steel
<b>Sizes (LxHxD)</b>	650mm.x350mm. x430mm.	650mm.x390mm. x430mm.	650mm.x440mm. x430mm.
<b>Weight</b>	27 kg.	32 kg.	40 kg.
